

The Operating Core for Legal

Cloud-based case, matter,
investigation, and project
management software.

Filevine is everything you need to manage cases, improve processes, increase client communication, track billing, and schedule your time—all backed by a support team that helps you grow.

Intake and Lead Tracking

Manage leads more effectively and refine your marketing mix with our advanced Legal Intake Software.

Billing & Time-keeping

Take control of your time and your firm's financial future with automated time-tracking and invoice generation.

Case and Matter Management

Manage each step of your cases, matters, investigations, and projects with all-encompassing cloud-based software.

Advanced Reporting

Take the guesswork out of managing your firm. Get regular reports and let the data drive your decisions.

Document Management

Don't waste time creating and looking for documents. Generate, edit, and store all documents in the appropriate case file.

We can meet with our clients anywhere.

We connect to Filevine on our tablets, so I can be on the road, meet with my client, and have access to their entire file right there. I can assign tasks and take notes anywhere. It's just so much more efficient."
